DESIGNING PROTECTION, DELIVERING PIECE OF MIND

Company Structure

Who, What, & Why?

**Designing Protection,
Delivering Peace of Mind**

Meeting Shields, LLC is a 100% minority & woman-owned, full-service, Protection Management Firm, that has a focus on the providing solutions to the hospitality, entertainment, educational, and transportation sectors.

Within our firm's canopy of divisions, we customize, design, create and distribute PPE & Social Distancing Products, Industry Specific Designs, Accessories, Technology, Spatial Distancing & On-Site Medical Programing Implementation, and 3D Virtualization of any space or area.

All our offerings are quality tested products and preemptive & preventative services, that provide an added layer of protection, for long term practical emergency management preparedness, while delivering a peace of mind.

Our products & accessories come in a variety of dimensions and are customizable, allowing for personalization and/or branding. These products & accessories will enable you to focus on meeting your clients' expectation, while reinstating industry safely.

Our Social Distancing & Strategy Consultative Division will continue to give you and your teams peace of mind, knowing there is an overall reaching long term blueprint and strategy to maintain safety and emergency preparedness that ties it all together!

Experience, Passion, & Care!

Our team has a proven background within the hospitality industry, as we have over 100+ collective years of experience supporting both the sales and meeting planning side of the industry. This experience enables us to genuinely empathize with the need of getting the meetings, events, entertainment, educational, and transportation segments of our economy up and running, post this global pandemic. The products & services offered were designed specifically to ensure people regain a sense of safety and security, while delivering peace of mind when re-entering their business, hospitality and educational environments.

Let's Work Together To Fill This Void

There is a need to bring corporate & leisure groups back to venues, students & teachers safely back to educational spaces, and corporations and associations back to their working environments!

The long-term successes that come from these segments are essential to an ever-growing world!

Allow Meeting Shields, LLC to focus on designing a sense of security, so you can focus on delivering a Peace of Mind to your organizations.

Our assortment of customized products & services ensures this void is filled and that you can move forward operating with confidence.

If you are ready to explore options, we're ready to share our solutions!

Let's Look to the Future Together!

A man in a dark suit and patterned tie is seated at a light-colored wooden conference table. He is looking down at a laptop in front of him. On the table are several other laptops, papers, and a small vase with dried orange flowers. A clear glass shield is positioned between him and the camera. The background shows a modern office with large windows.

A peek behind the shield!

Twanna Rachal-Woods
Co-Founder/Owner/Managing Partner

With over 25 years each, in the hospitality industry on both the sales and meeting planning sides, these two C-suite hospitality focused entrepreneurs saw a need to help get the meetings and educational industries up and running post a global pandemic. Their passion for servicing their hospitality clients and building profitable business relationships have easily allowed them to find a way to spill over into entertainment & educational sectors, to bring both these industries back to the “new normal.” They are a 100% woman and minority owned PPE specialized design firm continuing to design, create, and distribute customized products to allow all these industries to feel safe and secure. Along with their unique personal customized design process, their products and social distancing consulting divisions of their company have been recognized as a game changer to these industries!

It's Simple:
YOUR NEED + OUR PRODUCT = BENEFITS / VALUE

Temperature Scanning Kiosk Options

Meeting Shields, LLC Temperature Scanning Kiosk can help simplify access control and attendee/visitor management with wellness-check access control solutions. This modular platform can help clients easily deploy a wellness questionnaire (per CDC guidelines) which allows you to tailor questions to screen employees and visitors at entry to assess wellness related concerns.

It also comes with a temperature reader to provide initial, real-time checks prior to entry for self-service employee and guest screening. Utilizing an infrared bolometer and 2D camera, the Temperature Sensor Pro uses heatmap temperature reading technology. The temperature sensor can detect faces, automatically adjust based on height, and output temperature data for each person detected in the field of view (FOV).

Touchless Biometrics

with Body Temperature Detection

Biometrics Access Control Touch Panel

ADVANTAGES

- Streamline your screening process and lower labor costs.
- ➤ Choose between a free-standing kiosk or tabletop tablet depending on what's best for your environment.
- ➤ The kiosk will notify the necessary personnel that the tested person's temperature is heightened.
- ➤ Thermal sensor that reads temperature in less than 1 second.
- ➤ Optional printer for audit receipts.

ONSITE SOCIAL DISTANCING PROGRAMMING OPTIONS

Communicate Your Preferences Silently.

- Social Bands are a silent way to communicate your preferences on social distancing with a very affordable and easy to understand program. We created our program specifically for trade shows, office buildings, churches, cruise ships, etc.

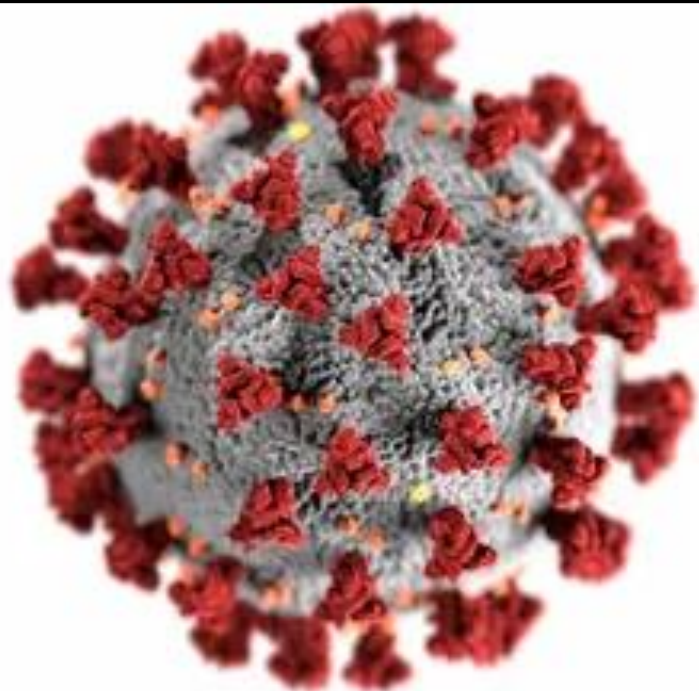

EVENT ACTIVATION

- We operate on a red, yellow, green light basis. Wristbands are provided at each convention center entrance (along with pop-up banners for explanation) and the attendees are given the option to choose which color they relate best to. This way the exhibitors know their stance without having to have the awkward conversation. When an attendee is wearing red, an exhibitor knows to take the distancing very seriously.

ONSITE COVID-19 TESTING AND BUSINESS MITIGATION SOLUTIONS

- Our Covid Mitigation Services will help your organization prepare for and reduce the likelihood of negative impacts due to Covid-19. Our approach is to go beyond testing your team. We will help your organization identify risks, plan accordingly and execute against those plans.
- Flexible COVID-19 Screening Solutions
- Live Virus/Antibody Testing
- On-Site service options
- PCR Initial results in 15 minutes for all testing
- Organizational risk and mitigation planning
- End to End /Turnkey services or a-la-carte

Air Purifiers for Protection Against the COVID-19 Virus

Our full line of air purifiers utilize advanced Medical Grade HEPA technology to remove airborne viruses and bacteria. Certified HEPA filter removes 99.7% of all particles larger than 0.3 microns. Portable air purifiers can be moved from place to place in hotels, event spaces, classrooms, office buildings, restaurants, and wherever needed!

High-Capacity Air Purifier Ultra Purity Air Purifier

Utilizes a Medical Grade HEPA Carbon Cloth to establish a 5 Stage Filtration Process. Provides ultimate protection against the COVID-19 virus since it contains an extra level of protection, a HEPA carbon cloth, which captures and destroys airborne viruses.
